

INDEX.

A.

- Abnormal ovariectomy, 21.
 Abortifacient, quinine as a, 101.
 Abortion; criminal, death during, 67; opium as preventing labor, 417.
 Abortive treatment of boils and whitlows, 22.
 Abscess; of cerebellum, 79; alveolar, 264; due to caries of hard palate, 264; deep cervical, 439.
 Absinthe, 309.
 Abuse that should be disclaimed and suppressed, 72.
 Accidental poisoning, singular case, 345.
 Accidents, dental, during anaesthesia, 361.
 Acid; *carbolic*, as a disinfectant, 47; local use of in uterine diseases, 105; in canine skin diseases, 388; *carbonic*, liquified, 365; *prussic*, case of poisoning by, 172.
 Aconite root, 47.
 Acorn coffee in diarrhoea, 389.
 Acoustics, important discovery in, 49.
 Actæa, racemosa, 109.
 Action of mercury on liver, 140.
 Acute; phthisis, 61; bursitis, 153; tonsillitis, ice in, 165; diseases, digitalis in, 284.
 Additions, therapeutical, 378.
 Adhesion, of soft palate and uvula to posterior wall of pharynx, 203.
 Adhesive plaster, fluid, 43.
 Administrator of anaesthetics, obligations and responsibilities of, 196.
 Advances in pelvic pathology, 466.
 Advantages of wet nursing, 468.
 Advertisement, curious, 126.
 Advertisements, obscene and quack, 255.
 Affections, aural, in children, 16.
 Affusions, cold, in collapse in fever, 336.
 Ague, new cure for, 380.
 "African consumption," 44.
 Air, test of pure, 124.
 Alabama, epidemic influenza in, 281.
 Albuminuria attending erysipelas, 330.
 Alcohol; effects of, 38; on giving as a nourishment, 48; medical declaration concerning, 396.
 Alcoholic stimulants, 403.
 Alcoholism, 288; and delirium tremens, 329.
 Algiers, climate of, 234.
 Alumni meeting, of Jefferson College, of Pennsylvania University, 253.
 Alveolar abscess, 264.
 Amaurosis, 169.
 Amblyopia potatorum, 246.
 American; cities, death rate of, 124; Medical Association, 234, 398, 401, 430; public health associations, 270, 397, 450.
 Ammoniacal treatment of prurigo, herpes and chronic eczema, 271.
 Ammonium, with syrup of phosphates of iron, manganese, quinia and strychnia, 205.
 Amputation; of leg, 152; of penis for malignant disease, 437.
 Anaesthesia, 131; dental accidents during, 361.
 Anaesthetics, obligations and responsibilities of administrator of, 196; and HORACE WELLS, 486.
 Anal fistule, importance of examination in, 74.
 Analysis of typhus milk, 42; of cobra poison, 393.
 Anatomical specimens, preserving, 156.
 Anatomy, further flights in, 178; Prof. Knox and text-books, 327; chair of, in Jefferson Medical College, 485.
 Ancient, nomenclature, 393; medical art, 397.
 Anecdote, a French, 269.
 Aneurism; aortic, on, 44; arterial torsion in, 251; treatment of, 339; and rupture of heart, 353.
 Anglo-Saxon degeneracy, 74.
 Animal poisoning from use of soap, 315.
 Annular stricture of urethra and hemorrhoids, 114.
 Ante-scrotal urinary fistula, treatment, 172.
 Anteversion and hypertrophy of uterus, 257.
 Antidotes, opium, 238.
 Antiperiodic, gelseminum as an, 82.
 Aorta, aneurism of, 442.
 Aphonia, nervous and chronic pharyngitis, treatment of, 462.
 Aphorisms of Hippocrates, 115.
 Apoplexy, or cerebro-spinal meningitis, which? 136, 303.
 Apomorphin, therapeutical value of, 14.
 Apparatus, ophthalmic, some improved, 125.
 Application; a new to corns, 100, 182; for chilblains, 268.
 Appointment, 309; Dr. Meynert's, 237.
 Approaching epidemics, 342.

Arsenic in hydrophobia, 21.
 Arterial torsion in aneurism, 251.
 Asbestos, the nature and uses of, 414.
 Aspirator; pneumatic, surgical uses of, 156, 288, 310.
 Art, ancient medical, 397.
 Articular disease, puncture in, 491.
 Asafoetida in convulsions, 449.
 Association; of American Medical Editors, 345; Am. Med., 234, 398, 401, 430.
 Ataxia, 266; locomotor, 13.
 Atrophy; of optic nerve, strychnia in, 414; of testes from iodide of potassium, 414.
 Attending the poor by contract, 214, 218.
 Aural affections in children, 16.
 Autopsy of William IV, of England, 83.

B.

Baby-farmers executed, 468.
 Ball, Minie, lead poisoning by, 232.
 Balsam of copaiba, remarks on, 36.
 Bands, rubber, in treatment of fractures, 447.
 Bath; vapor in hydrophobia, 217; cold, how to take it, 233.
 Baths, hot sand, 22.
 Beef-tea, Baron Liebig on, 268.
 Belgian Medical Association on drunkenness, 390.
 Belladonna in opium poisoning, 415.
 Bellevue Hospital training school for nurses, 432.
 Benefactor of his race, 450.
 Benevolence, discriminating, 468.
 Berlin, University of, 184; medical matters in, 304.
 Bernardy, Dr., treatment of variola, 266.
 Bequest, munificent, by a Baltimorean, 272.
 Bies, Madam, 397.
 Bile stones, treatment of, 392.
 Biogeny, 290.
 Birds, medical, annual flight across the water, 452.*
 Birth, triple, 274.
 Births in Philadelphia in 1872, 274.
 Bladder, treatment of diseases of by injection of urine, 393.
 Blake, poor Miss, 101.
 Bleached, tincture of iodine, 46.
 Blindness, causes of, 304; color, medico-legal importance of, 325.
 Blister treatment of rheumatism, 197.
 Blood, transfusion of, 75.
 Board of health, State, 124.
 Bodies, dead, new method of preserving, 46.
 Bodily weight in mental disease, 130.

Bogus diploma business, 147, 251, 254.
 Boils and whitlows, abortive treatment of, 22.
 Bonapartes, the, 237.
 Bone, frontal, necrosis of, 83.
 Bones, syphilitic elongation of, 183.
 Bougies, medicated, 362.
 Bowels, small, case of twisting or convolution of, 435.
 Brain; tumor of, convulsions and paralysis referable to, 168; passive capillary congestion of, 547; work and brain-worry, 392; disease, mechanism of production of, and treatment, 426.
 Brandy vs. tea, 270.
 Bright's disease, 141; two cases of dropsy dependent on, cured by scopolius, 85; chronic, 247.
 Bromide of potassium in epilepsy, 234; not a cure, 306.
 Bromides, employment of in nervous diseases, 74; in epilepsy, 362.
 Bromine in diphtheritic inflammation, 73.
 Broncho-pneumonia, 111.
 Burning; oils, sale of, 397; of small-pox hospital, 51.
 Burns and scalds, 306.
 Bureau of sanitary science, 52.
 Bursal ganglion, 154.
 Bursitis, acute, 153.

C.

Cabbage leaves, therapeutical uses of, 248.
 Cachexia, lead, marked, in lead colic, 33.
 Caffein, on, 38.
 Cajaput oil in convulsions, 126.
 California, climate of, 414.
 Camphor tree, 26.
 Cancer, and quackery, 132; lecture on, 407.
 Canine skin diseases, carbolic acid in, 388.
 Capillary congestion, passive of brain, 347.
 Carbolic irritant, 296.
 Carbonic acid gas, liquified, 385.
 Carcinoma; relation to tubercle, 171; gastric, 266.
 Cardiac fibrinous deposit, treatment, 93.
 Caries, of os calcis, 1; of hard palate, abscess from, 264.
 Carson, Prof. Joseph, 24.
 Catalepsy, 24.
 Cataract, statistics of, 39.
 Causation of skin diseases, occupation, etc., 49.
 Causes of blindness, 304.
 Cavities, lung, 233.
 Centenarians, 21, 101, 393, 493, 494.
 Cerebellum, abscess of, 79.

- Cerebro-spinal meningitis, 425, 475; or apoplexy, which? 136, 303; in Georgia, 452; in Illinois, 271; epidemic, 469; practical remarks on, 489.
- Cervical abscess, 439.
- Cervix uteri and os, inflammation and ulceration, 294.
- Character, protective of classes of scars, 265.
- Characteristics of medical men, 394.
- Charge, serious, against a physician, 269.
- Chilblains, application for, 268.
- "Charm doctor," a, 397.
- Children; aural affections in, 16; headache in, 42; impediments to micturition in, 100; pancreatic emulsions in wasting diseases of, 174; lymphoma in, 211; constipation in, 234.
- Chloral; substitute for, 26; and physostigma in tetanus, 132; in midwifery, 384.
- Cholera, 77, 184, 237; in Europe, 25; infantum, 154, 325; ethiops mineral in, 164; syrup Reid's, 335; progress of, 458, 494.
- Chorea and its treatment, 117.
- Chronic; dysentery, 9; encephalitis, 154; Bright's disease, 247; eczema and herpes, ammoniacal treatment, 271; uterine inflammation, 335; pharyngitis and nervous aphonia, treatment, 462.
- Cicatricial contraction of fingers, 88.
- Cicatrices, treatment of, 385.
- Cigarettes, Lancelot's, 238.
- Cities; American, death rates in, 124; responsibility of in regard to spread of small-pox, 200; mortality of large, 250; large, of the world, 380.
- Climate; of middle Iowa, 183; effect of on wounds, 232; of Algiers, 234; of Western Texas, 309; of Southern California, 414.
- Closets, water, precautions about, 181.
- Cobra poison, analysis of, 393.
- Cod-liver oil, when to give, 285.
- Coffee, acorn, in diarrhoea, 389.
- Coition, condition of cervix uteri in, 357.
- Cold bath, how to take, 233.
- Cold affusions in collapse in fever, 336.
- Collapse; in fever, cold affusions in, 336; hypodermic treatment of, 468.
- Collect fees, how to, 197.
- Collections, prompt, 104.
- College; of Pharmacy, National, 24; at Nashville, 52; for nurses, 201; Philadelphia Dental, 219; Jefferson Medical, 305; Physicians' and Surgeons', New York, improvements, 395.
- Color; in hair, 282; blindness, medico-legal importance of, 325.
- Colored light and vegetation, 75.
- Colorless tincture of iodine, 391.
- Commencements; Union University, New York, 102; University of New York, 217; of College of Physicians and Surgeons, Baltimore, 218; Philadelphia Dental, 219; Pennsylvania Dental, Bellevue Medical College, 236; Jefferson Medical College; University of Pennsylvania, 253; Women's Medical College, 254; Medical College of Ohio; Miami Medical College; Georgetown Medical College; College of Pharmacy, Philadelphia, 272; thirtieth annual of Rush Medical College, 310; College of Pharmacy, New York, 328.
- Compact uterine examining case, 46.
- Conception, early after delivery at full term, 50.
- Conduct, disgraceful, of medical students, 21.
- Condurango again, 234.
- Congestion; the "one idea" of uterine therapeutics, 27; capillary of the brain, 347.
- Congressmen charged with selling medical and surgical history of the war, 493.
- Conium, therapeutic uses of 467.
- Conjunctivitis, phlyctenular, 244.
- Consolation, dubious, 22.
- Constipation in children, 234.
- Consumption, African, 44; distribution of, 393.
- Consumptives, elevated resorts for, 287.
- Contract, attending the poor by, 214.
- Contraction of fingers from cicatrix, 88.
- Convolution or twisting of small bowels, 435.
- Convulsions; oil of cajaput in, 126; and paralysis, referable to tumor of brain, 168; assafœtida in, 449.
- Coracoid process, fracture of, 110.
- Cornea; ulcer of, 246; tinting the, 340.
- Corns, new application for, 100, 182.
- Coroner's office, New York, changes in, 78.
- Coroners, 269.
- Copaiba, balsam of, 36.
- Cough, whooping, 22.
- Counter prescribing, 397.
- Cow-pox compared with humanized vaccination, 169.
- Craniologist, a royal, 127.
- Cranium, fracture of, 150, 244.
- Credulity and Science, 225.
- Criminal abortion, death during, 67.
- Cubebæ syrupus, 339.
- Cultivation of the poppy, 51.
- Currency, novel, 24.
- Current, continued, cases of lead poisoning treated by, 113.

Cure; for rheumatism, saliva as a, 124;
new, for ague, 360; radical, for hernia, by
new operation, 324.
Cystitis, treatment of, 22.

D.

Darwinism, and philology, 99.
Dead bodies, new method of preserving, 45.
Death; rates in large cities, 124; of Emperor
Napoleon, 146; singular causes of, 327;
from gonorrhœa, 467.
Deaths (last page of each number).
Declaration, medical, concerning alcohol,
396.
Definition of electricity, 389.
Degeneracy, Anglo-Saxon, 74.
Degeneration, another sign of, 392.
Delirium tremens and alcohol, 329.
Dental accidents during anæsthesia, 361.
Dentition, the third, 45.
Dentists, important for, 148.
Depilatory mixture, a new, 398.
Derivation of "Rachitis," 269.
Deposit, fibrinous cardiac, treatment of, 93.
Detecting death, electricity as a means of,
67.
Detection of iodine, 49.
Determination of life or death in the foetus,
411.
Diabetes, treatment of, 226; insipidus, 238.
Diagnosis; under difficulties, 45; of small-
pox and measles, 298.
Diapers, rubber, 238.
Diarrhœa; value of salicin in obstinate, 106;
with dropsical effusions, 169; acorn coffee
in, 359.
Digitalis in acute diseases, 284.
Diplomas; fraudulent, 129; sale of, 147, bo-
gus, business again, 251, 254.
Diphtheritic inflammation, bromine in, 73.
Discoveries, more French, 215.
Discovery, important, in acoustics, 49.
Discriminative benevolence, 468.
Disease; heart, veratria in, 44; temperature
in, 47; nervous, bromides in treatment of,
74; uterine, local use of carbolic acid in,
105; Bright's, 141; of left ovary resulting
in fatal hemorrhage, 205; Bright's chronic,
247; uterine, articles on, 290; vaccinal,
291; of bladder, treatment by injection of
urine, 393; malignant, of penis, 437; arti-
cular, puncture in, 491.
Diseases; mental, bodily weight in, 130;
wasting of children, pancreatic emul-
sions in, 174; valvular, of the heart, treat-
ment of, 248; acute, digitalis in, 284; of
the spleen, their effects on the system, 445.

Disgraceful conduct of medical students, 21.
Disguising quinine, mode of, 22.
Disinfectant, carbolic acid as a, 47.
Disinfectants, experiments with, 95.
Dislocations; long standing, 175; three rare
cases, 336.
Distribution of consumption, 393.
Diuresis and diuretics, 49.
Doctor in Texas, settling with the, 273.
Doctors; robbing, 24; hard on, 146.
Doses, graduation of, by weight, 99.
Dosing a tiger, 25.
Drinks, fancy, 71.
Droopy, dependent on Bright's disease cured
by scoparius, 85.
Dropsical effusions with diarrhœa, 169.
Drunkenness, Belgian medical association
on, 390.
Drowning man's sensations, 450.
Dubious consolations, 22.
Dye, hair, 394.
Dysentery, chronic, 9.
Dyspepsia, myrrh in, 43.

E.

Early conception after delivery at full term,
50.
East Tennessee as a health resort, 461.
Eclampsia, 34.
Eczema, chronic, ammoniacal treatment,
271.
Edinburg, female students in, 344.

HOSPITAL REPORTS:

Albany Medical College—Nervous paresis; hemiplegia, 12; locomotor ataxia, 13.

College of Physicians and Surgeons—Keokuk, Iowa.

Traumatic epilepsy cured by trephining, 282.

Encysted tumor of thigh, 425.

Medical Dept. of Washington University, Baltimore—Gastric ulcer, 11.

Tuberculous, pneumonia, post-mortem examination; convulsions and paralysis referable to tumor of brain, 168.

Syphilitic paralysis; chronic Bright's disease, 247.

Impermeable urethral stricture, external urethrotomy, 333.

Aneurism of aorta, 442.

Pennsylvania Hospital—

Paraplegia, 8; chronic dysentery, sciatica, 9; typhoid fever, 10.

Lead colic, with marked cachexia, 33; sciatica in a hysterical man, 34.

A case of lardaceous liver, spleen and kidney, 59; typhoid fever, simulated case of, 60; acute phthisis, post-mortem, pleurisy and effusion, associated with limited pneumonia, 61.

Scurvy, 84; two cases of dropsy dependent upon Bright's disease, cured by scoparius, 85.

Broncho-pneumonia, 111; pneumonia, 112; erysipelas, venous thrombosis, 138.

Hypertrophy of prostate gland, retention of urine, 102; symptoms of enlarged prostate, 192.

Strangulated inguinal hernia, 206.

Treatment of diabetes, 226.

Deep cervical abscess, 439; general phlebotomy, 441.

University of Pennsylvania—

Total necrosis of femur, sequestrotomy, 86; necrosis of frontal bone, 88; cicatricial contraction of fingers, 88.

Amputation of leg, upper third, 152; acute bursitis, 153; bursal ganglion, 154.

Odontocoele, 262; alveolar abscess, 264; abscess due to caries of hard palate, 264.

Laryngeal fistule, 316; stricture, retention of urine, 318.

University of Iowa—Supernumerary toes, 139.

Wills' Ophthalmic Hospital—

Phlyctenular conjunctivitis, 244; paralysis of sixth pair, bringing forward of external recti muscles, 245; amblyopia potatorum; ulcer of cornea, 246.

Hospitals; lying-in, 19; new in Philadelphia, 162; French, manners in, 465.

Humanized virus, cow-pox compared with, 169.

Humboldt, 309.

Hydatids, hepatic, tapping, 99.

Hydrangea arborescens, 20.

Hydrophobia, 238, 310.

Hydrophobia; arsenic in, 21; vapor bath in 217.

Hygiene on steamships, 148.

Hypodermic; solutions, 100; injection of vaccine lymph, 270; treatment in collapse, 468.

Hypertrophy; of prostate gland, 191; and anteversion of uterus, 257.

Hysteria in a young man, 344.

Hysterical man, sciatica in, 34.

I.

Ice in scarlatina, 23; in acute tonsillitis, 165.

Idiots, school for, 24.

Illinois, cerebro-spinal meningitis in, 271.

Immunities from variola, 265.

Impediments to micturition in children, 100.

Impermeable urethral stricture, 333.

Importance; of examining for strictures in anal fistule, 74; medico-legal, of color blindness, 325.

Important; discovery in acoustics, 49; to dentists, 148.

Improved; method of taxis in strangulated hernia, 6; means of plugging posterior nares, 446.

Indecent medical literature, 267.

Infancy, therapeutics of, 409.

Infantum, cholera, 154, 325.

Inflammation; of lung, experiments on, 42; bromine in diphtheritis, 73; and ulceration of os and cervix uteri, 294.

Inferior, maxilla, fracture and treatment, 332.

Influence, maternal upon foetus in utero, 420.

Influenza; epidemic, 234, 275; is it among us, 182; further notes on, 424, 452.

Inguinal, strangulated hernia, 206.

Injection; hypodermic, of vaccine lymph, 270; of urine in disease of bladder, 393.

Insane; provision for in France, 123; man-

agement of hospitals for, in New York, 215, 236; was Swedenborg? 320.
 Insanity; 166; the plea, 75, 164; puerperal, 129; from religious excitement, 268; why it increases, 467.
 Instances of vaccinal disease, 291.
 Instruments, surgical, display, 237.
 Items, personal, (see last page each No).
 Intermittent fever, epidemic, 31.
 International medical congress in Vienna, 364.
 Intestinal perforation, a physical sign of, 462.
 Intoxication, uræmic, 169.
 Intra-uterine, medication, 211.
 Iodide of potassium, causing atrophy of testes, 414.
 Iodine; bleached tincture of, 46; detection of, 49; colorless tincture of, 391.
 Iron; syrup of phosphates of with ammonium, 205; muriate of, in erysipelas, 450.
 Irritant; carbolic, 296; oat-straw as an, to the skin, 363.

J.

Jaundice, treatment of, 41.
 Jasper's operation on the mastoid process, 395.
 Jews and Gentiles, 51.
 Joint, false and its treatment, 338.
 Journalism, French medical, 361.

K.

Kidney, spleen and liver, lardaceous, 59.
 Knox, Prof., and text books of anatomy, 327.

L.

Labels, varnish for, 379.
 Labor; tedious, 35; use of opium in, 417.
 Lancelot's cigarettes, 238.
 Lardaceous liver, spleen and kidney, 59.
 Large; fees, 51; cities, mortality in, 250; cities of the world, 380.
 Laryngeal fistule, 316.
 Law suit; for non-vaccination, 202; vaccination, 466.
 Laws, against sale of spirituous liquors, 322.
 Lead; colic, with marked lead cachexia, 33; poisoning, relation to muscular tremors, 66; poison treated by continued current, 113; poisoning by Minié ball, 232.
 Lean and fat, 129.
 Leaves, cabbage, therapeutical value of, 248.
 Lecture on clinical surgery, 1.
 Lectures, the Toner, 305, 413.
 Leg, amputation of, 152.
 Legislation, medical, in Minnesota, 323.

Leprosy in the Sandwich Islands, 327.
 Liebig, Baron; on beef-tea, 268; obituary, 340.
 Life; or death of fœtus, determination of, 411; insurance, a few warnings about, 412.
 Ligamentum-patellæ, rupture of, at its insertion, 174.
 Ligation, section by, 271.
 Light; colored and vegetation, 75; in school rooms, 248.
 Limitation; of venereal, 377; of syphilis, 465.
 Limited pneumonia, with pleurisy and effusions, 61.
 Lincoln University, medical department of, 493.
 Liquefied carbonic acid gas, 385.
 Liquors, spirituous, a cause of sickness, misery and death, 322.
 Literary periodicals, 163, 491.
 Lithium salts in treatment of renal diseases, 375.
 Liver, lardaceous, 59; action of mercury on, 140.
 Livingston University, Camden, New Jersey, 215, 251.
 Local use of carbolic acid in uterine disease, 105.
 Locomotor ataxia, 13.
